DETAILED ACTION

Allowable Subject Matter

1. Claims 1-46 are allowed.
2. The following is an examiner's statement of reasons for allowance:

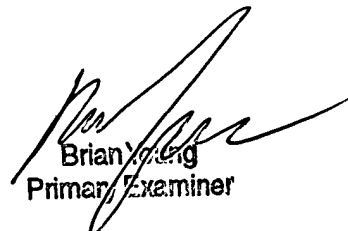

The prior art fails to show an analog device for controlling an analog system that generates an analog output signal comprising: each new digital value being determined from a difference between a signal linked to the output signal and a last determined value of the control signal multiplied by a selected factor (claim 1); a comparator providing an analog detection signal based on the representative analog signal and on the analog control signal (claim 9); and multiplying a last-determined value of the control signal by a factor to produce a product and comparing a value of the product to a value of a signal representative of the output signal (claims 20 and 33). Therefore, claims 1-46 are allowed.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John B Nguyen whose telephone number is (571) 272-1808. The examiner can normally be reached on 8AM-4:30PM M-F.
